

September 2023

Dear Parent/Carer,

We have organised the Bikeability team to come into school to deliver a cycling safety session (Bikeability Level 1) which will take place on the school playground.

Sessions are delivered by qualified cycling instructors and the children will be supported by school staff.

The sessions are appropriate for all abilities, whether your child is able to ride a bike or not.

The instructors are providing enough bikes and helmets for every child. We ask that children don't bring their own bike to school as we are unable to keep them secure throughout the day.

The weather is forecasting showers for next week, please make sure your child has a coat as the Bikeability sessions will continue to take place in light rain.

The session for Willow class is on Monday 11th September.

The session for Redwood class is on Tuesday 12th September.

If you have any further questions please contact the office.

Yours faithfully

Michael Clarke
PE Leader
